School Information
Proposed Model: <i>Briefly describe the proposed school model and how this model addresses innovation in education.</i> We will provide a high quality virtual learning school for children throughout Indiana. Some elements of our

model will include: deploying high quality e-learning through dynamic virtual classrooms where educators will provide real-time, personalized instruction to children; implementing dynamic learning programs like Edgenuity that enable students to master academic concepts at their own pace; and personalizing the learning process through the use of small-group rotations across virtual classrooms. Our Academy will also both support the social-emotional development of our scholars, and prepare our students for college and career.

Mission of Proposed Charter School: *In one or two sentences, provide a clear statement that defines the purposes and nature of your school.*

Our mission is to ensure all students (who we call 'scholars') meet high academic and social standards, and thrive as leaders at home, in their communities and in the world. Our ultimate vision is that our scholars master key academic skills, and demonstrate strong character, as exhibited by honesty, service to others, a superior work ethic, and a strong vision for and belief in their futures.
